## **Synopsis**

Xanterie Crash landing on Earth seemed to be the worst thing that could happen to Xan, his crew, and their battered ship. It was only the beginning. After nearly freezing to death, Xanâ™s savior, in the form of a little Earth female, is driving him crazy. He doesnâ™t want to want her, but he canâ™t seem to help it. Edie wonders if sheâ™s gone crazy when she wakes up looking into the glowing red eyes of a naked, not quite human male. He seems determined to keep her with him, but sheâ™s just as determined to go. She believes she can get away, he thinks heâ™ll never let her escape. Is there a compromise, or will they drive each other crazy? Is Xanâ™s space ship crashing on Earth bad luck or the solution to the Viniiâ™s survival?

## **Customer Reviews**

I absolutely love it. Xanterie is the first book in the exhilarating new series, Warriors of the Venii by Corre Deepe and it totally rocks! Correct Deepe is definitely a sci-fi goddess in waiting! This book is a little difficult to search for on but it's well worth the effort. It's a complete stand alone novella with no cliff hangers so buckle up and prepare for a wild ride. Handsome Xanteri Gogi is not only a feared and accomplished Venii warrior, he is also first born son to Wyler, emperor of their empire. He is the future King. The Venii Empire is the largest, richest and longest enduring empire ever

known. But his people have a very serious problem. Birth rates are steadily declining. Genealogists were puzzled and predicted the decline would not only continue but get much worse. Their race is dying. Scientists concluded their DNA has become stagnant and the only solution is to mate with a different race. But there are only a handful that are compatible and most of those are either undesirable or enemies. The situation is dire and Xanterie, Xan to his friends, has been tasked with the mission of searching beyond their galaxy for a compatible race and return as many as possible to his home world by any means necessary. Huh? Did that include kidnapping? Most definitely, if required! When Xan's scout ship crashes on an unfamiliar planet called Earth, he knows he and his crew are in trouble. He has no real information about the humanoids. Heck, he doesn't even know what they look like much less if they're compatible with his race. But when Xan ventures out into the extreme ice and snow of a place called Alaska to secure materials to repair his ship, he has no idea that he would be saved from an icy death by the beautiful earth female Edie and she is absolutely irresistible and intoxicating.
