Customer Reviews

I received this ARC in exchange for an honest review. The 1st book in this box set hooked me from the get go. I really liked this story but it is in need of some major editing. Like some names are wrong sometimes and facts that have already happened then in next few chapters it didn't happen. Quite a few grammatical errors also. Overall a really good book though if you can get past those things. Ok I'm not gonna lie and say I read the 2nd book in this box set. I was so bored out of my mind after a few chapters that I just couldn't take it. But totally worth it for the Shattered Series!!

I had to stop reading right at the point where James and Sylvia have sex for the first time. My 17 year old granddaughter can write better than this! Save your money on this one, it's a waste of time and money. Really bad...

This was a well written series that includes ten books. There are two stories, Shattered and Days. Each series has five books each. Authors Mary Jane and Caitlin Rain make a great combination. Lots of chemistry and sexy reads. Great characters and story lines that hook you in the beginning. You will enjoy this series! I received an arc copy in return for an honest review. This series is a great value, IMO

This is the first review I am writing. I thought that it was necessary because of the poor editing and grammar. I am by no means an English major but I know the difference in the use of words such effect and affect. The editing appears as though an elementary school student had the job. I don't mean to insult them either. Punctuation, spelling, and the wrong use of words as well as the character names changing. For example at one time "Doreen" had a name change only to go back

to "Doreen" later in the chapter. This made the reading very difficult not only because you are wondering who this new character is but then, I personally had to go back and re-read parts to make any sense of the changes. This along with the minute details such as the time of the day, length of time it takes to do something or go somewhere, and what each character is wearing right down to the colors. The placement of hands on shoulders and such is also too much. "She put her right hand on his left shoulder" is what I am referring to. This type of description is on at least every other page. I had to stop reading this box set because of the mistakes.

The stories were well written and I wish I could give it a better rating. However I am glad to say I didn't pay full price. The books have many typos in them. Too bad the editor and/or author didn't read the books after using computer spell check. That way bat wouldn't be band, her wouldn't be he. Sorry, but maybe someone should actually read what is written before publishing.

I was hooked from the moment I picked it up. I read the whole ten books in just two days because I couldn't put it down. The second series in the box set, was little harder to get into but overall Shattered was my favorite!

The book itself was worth the read; however, there were many areas where pronoun usages and using the right name of many of the characters was needed at the right time. I remember reading about Tori and Olivia's name was mistakenly in that spot. There needs to be more proofing. But keep up the good work!!

The 2 series in this set were ok reads, but I'm not really sure where "Sapphire room" or "Club Prive" have anything to do with the stories. I see there are other volumes with more series you can read. I just didn't get into this writing style to move on. If they were somehow all connected I could see reading them....but they are not.
