Cajas De Carton

Synopsis

In Spanish. Francisco Jiménez writes of his childhood growing up in an immigrant Mexican family. His narrative is simple, as from a child's point of view, but that same simplicity packs the power of a highly skilled storyteller. Beautifully and authentically rendered by actor and playwright Adrian Vargas, these twelve stories tell of the almost unendurable journey most migrant campesinos undertake to find the American Dream. The recording concludes with an afterword recorded by the author. Cajas de Cartón is also available in English as The Circuit.

Customer Reviews

I read this every year with my fourth graders during the second semester. The book a memoir or collection of short stories. I find that it is just what my students need to reassure them that tough living conditions are an excellent motivator for success.

It took forever to get here and when it did it was the wrong book. I ordered it for my son for his class and his was different than everyone else's book even though we all followed the same link from his teacher.
